Core Subjects	: Data Structure & Algorithm, Data Base Management System, Object Oriented Programming

EDUCATION

Currently pursing B.Tech in Information Technology.

Charusat University 📍 Anand, Gujarat.

📅 July 2023 – Present   CGPA : 7.39

Class XII(HSC) 📍 Rajkot, Gujarat.

Panini Science School
📅 2021 – 2023   83.97 PR

Class X(SSC) 📍 Rajkot, Gujarat.

Shree Satyaprakash Vidyapeeth
📅 2019 – 2021   94.54 PR

PROJECTS

1) Book Management system [GitHub]
Designed a web-based bookstore using MERN stack technology with features like buy, read, upload, delete book with good and responsive frontend.

2) **Research Innovation hub [GitHub]**
Developed a unified web platform using the MERN stack to enhance research collaboration, IPR tracking, startup ecosystem management, and academia-industry interaction. Designed with role-based access, responsive UI, and secure authentication for researchers, entrepreneurs, investors, and government officials.

3) **Smart Shopping App [GitHub]**
Designed a web-based Smart Shopping App using MERN stack. Built a modern web platform for retailers and customers using PHP, MySQL, HTML/CSS, and JavaScript. Key features include inventory and surplus stock management for retailers, and a seamless shopping experience for customers with browsing, purchasing, and exclusive deals.
